

CONGRESS, JULY 4, 1776.

TEA PARTY BOISE, LLC

The unanimous Declaration of the thirteen united States of America.

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

State Sovereignty, Economic Intelligence, Founding Principals and Personal Accountability are the foundations we stand for at Tea Party Boise, LLC.

A MESSAGE FROM

Jim Escobar, Sr., Founder and Director of Tea Party Boise, LLC

As I write this, I recall our fellow Tea Partier, Nate Shelman, speaking to a wonderful crowd of cheering people. It was the beginning of the Tea Party Boise journey. Today, through a united efforts we realize that it is possible to restore this nation to the republic upon which it was founded.

It wasn't long ago I stood in a room downtown packed full of people. With deep felt emotion I expressed concern for the future of my children and yours. We were only weeks into the creation of Tea Party Boise and from organizing one of the largest rallies Boise had ever seen. We, as directors, are striving to keep communication open, be informed and involved with the actions of our state and local government. The Tea Party Boise rallies and others across this nation exhibit the people's energy, passion, fear and determination to get this country back on a path so many gave their lives for. We were built on a foundation of individual liberty, and limited government and we have allowed it to be taken from us.

The masterminds that crafted the founding documents, The Constitution and the Declaration of Independence, understood the self perpetuating growth a sovereign government can create.

THE MEANING OF LIBERTY

If Americans should ever come to believe that their rights are instituted among men by politicians and bureaucrats, then they will no longer carry the proud inheritance of their forefathers, but will grovel before their masters seeking favors and dispensations-a throwback to the Feudal System of the Dark Ages.

We must keep in mind the Declaration of Independence:

“We hold these truths to be self-evident, that all men are created equal, that they are endowed by their creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among men, deriving their just powers from the consent of the governed.”

300 VOICES
WERE HEARD!

by Brendan Smythe

Liberty minded Americans are no longer silent. This was the case during the Town Hall meeting on August 22nd with Congressman Walt Minnick in person and Senator Mike Crapo via telephone, sponsored by Tea Party Boise. Patriots packed the house to standing room only and a raffle was held to select audience members to ask questions. Tough questions were raised, tempers flared, and the answers did not always suffice, but the crowd always maintained control--hushing themselves when the need arose. continue on next page-----

The writers of these documents created a foundation for a republic that protected life, liberty and property.

We, the people, can return this country to the republic it was meant to be, but only with your involvement. Remember, the State is the powerhouse not the federal government. Remember, the 2nd Amendment, to keep government in check. Remember, that the government works for us, the people! The power is ours! Town Hall meetings around the country attest to the difference we can make!

Our journey is to take this country back. Your support is needed. Tea Party leaders and managers are unpaid volunteers who generously give their time. Please contact us with the amount of time and/or monetary support you chose to share.(contact@teapartyboise.com).

Respectfully and humbly,
James L. Escobar, Sr.

The biggest uproar came when Congressman Minnick stated that it was the job of the Supreme Court to protect the Constitution and not his job. Blood boiled! Our voice was heard! 300 concerned patriots on that day made an impact not only to the Congressman and Senator, but to Idaho

We showed yet again that we can rally at a moment's notice to show the nation that Idaho will not sell its liberties! That was the main message, especially to Congressman Minnick, "get out there and protect our Freedom, dang it!" He got the message.

Thanks to all those who courageously asked questions and thanks to the media for their true reporting (with the exception of the Statesman, which we rate an F). Special thanks to master patriot, KBOI's Nate Shelman, for his professional MC'ing and also our appreciation to Senator Mike Crapo and Congressman Walt Minnick for entering the lion's den and responding to difficult questions. Thank you to all that gave financial support, these events are not free and you are making it possible! Most importantly, thanks to all the volunteers for the amazing coordination, without them none of this would be possible.
